**Aguanga, CA 92536**

**CA State Bar #130161**

## **LEGAL EXPERIENCE**

### **SOUTHERN CALIFORNIA EDISON COMPANY**

August 1990 – September 30, 2013                      *Senior Attorney*                      Rosemead, CA, USA

- Represented SCE in California Public Utilities Commission audits of Commission-sponsored customer distributed generation and solar incentive programs.
- Represented SCE in a variety of regulatory proceedings before the California Public Utilities Commission, including: (i) California Solar Initiative OIR; (ii) Net Energy Metering Interconnection and tariffs; (iii) Self-Generation Incentive program; and early phases of the Greenhouse Gas Cap-and-Trade Program.
- Represented SCE and individual employees during investigations by the Nuclear Regulatory Commission Office of Investigation of SCE's San Onofre Nuclear Generating Station (SONGS).
- Negotiated and drafted multimillion dollar materials and services contracts, fuel supply contracts, construction contracts, computer hardware and software contracts and licenses with large national and international companies for SONGS.
- Advised various client groups on legal issues related to business activities and compliance with federal and state statutes and regulations.

### **PARKINSON, WOLF, LAZAR & LEO**

September 1987 – August 1990                      *Attorney*                      Los Angeles, CA, USA

- Worked on all aspects of civil litigation, from filing complaints to preparing and responding to discovery, taking and defending depositions, arguing pre- and post-trial motions, and briefing at a large Los Angeles law firm.
- Specialized in large technical cases involving fire damage, structural building damage, earth movement damage, and contaminated soils problems, as well as smaller negligence and other tort-related cases.

## **TECHNICAL EXPERIENCE**

### **TRW INC.**

February 1973 – September 1987                      *Engineer/Project Manager*                      Redondo Beach, CA, USA

- Designed and performed thermal analyses and conducted qualification and acceptance tests of satellite thermal control systems.
- Monitored and analyzed satellite thermal control systems during launch and on-orbit.
- Conducted research for NASA to define experiments for the Space Shuttle/Spacelab facility.
- Managed budgets, manpower, and schedules.
- Interfaced with and briefed company executives, upper management, and government contracting officers on status of projects.
- Wrote internal and deliverable technical reports and other project-related documentation.
